

LETTERS TO THE EDITOR

This is a county treasure

To the editor: I appreciate the city, county and region continuing to collaborate on the Oklawaha Greenway. The Board of Commissioners recently voted to work with the French Broad Metropolitan Planning Organization to create a countywide greenway plan, and will accept more than \$170,000 that the city of Hendersonville is giving for greenway improvement and upkeep.

My wife and I enjoy riding our bikes on the greenway. There is no traffic on the smooth surface and the community's use of this trail is obvious each time we ride. We see parents pushing strollers, fathers riding bikes with their children, teens coasting on skateboards and people safely enjoying the outdoors in their wheelchairs.

The greenway is a county treasure. Thank you for backing this project and working toward its expansion. We look forward to the time we can ride from Flat Rock to Asheville. Thank you again.

Michael Cornn
