**Emergency phones  
installed along  
Oklawaha Greenway**

The city has installed five blue light emergency phones along the Oklawaha Greenway system, with the help of grant funding from the North Carolina Department of Transportation.

These phones are designed to be used for dialing 911 in an emergency situation only. Each phone has a single button interface used to connect with 911 dispatch. The phones are currently operational. Area fire, police and rescue responders met and are planning response actions to any calls made from these phones. For more information, contact Brendan Shanahan, city civil engineer, at 828-233-3237 or orbshanahan@hvlnc.gov.
